Defective Appeal Brief

1. The following defects are noted in the Appeal Brief of December 12, 2005.

On pages 5 and 10 the grounds of rejection are noted as 35 U.S.C. § 103 when the actual grounds are 35 U.S.C. § 101 and 35 U.S.C. § 102.

2. The following **issue** is noted.

On page 13 of the Appeal Brief the Appellant states:

“In the Advisory action (dated September 27, 2005) the Examiner in order to obfuscate the distinction between the cited document and the invention as claimed contends that the “prior art shows the mechanism [by] which DLLs merge with existing software.” The Office takes issue with the statement that the Examiner takes any willful action to ***obfuscate***.

Obfuscate as defined in the Webster’s II New Riverside University Dictionary as issued to employee’s of the USPTO.

1. To make dark or obscure.

2. To confuse

The Examiner’s attempt to explain the technology contained in the reference was not an attempt to obfuscate. The technology which is the basis of the rejection performs the merging code contained in a DLL into an existing program module is not an attempt to cause confusion or obscure. The Examiner’s actions were not an attempt to violate ethical responsibility. The Office requests the Appellant revisit this wording.
